

KS3 Geography
World Building

NAME

This assessment is a little different from the standard ones!

Please put together information about the world you have created. This could include written notes, pictures or maps. You will receive one mark for each of the following elements you include:

- Atmospheric gas mix, colour and pressure
- River sources, tectonic plates and rainfall
- Topography, oceans and political borders
- Producers, consumers and decomposers in an ecosystem
- The site, situation and style of a city
- The fashion, food and religion of a group that lives there

There will be an additional 6 marks for showing how some of these things influence other things, such as how ecosystems effect food or topography effects river sources.

When you have completed the assessment please either scan or photo the pages and send them to me for marking at humanateestutor@gmail.com.

The deadline for submission of this assessment is **Friday 12th of April** and I'll be marking the papers and returning them on the 28th of April.
